University of Washington HQSC Mini Grant Application

Deadline: December 15th 2017

Details:

- HQSC will provide $500 grants to support initiation and/or ongoing QI projects
- Proposal should include background, objective, hypothesis, materials and methods, and plan on reporting findings (e.g. anticipated presentation and publication).
- Projects will be evaluated for clinical significance, feasibility, and potential impact on improving patient care
- The grant will be awarded after 4 weeks of announcement
- The grant is funded by the winners of the 2017 ACGME David Leach Award: Dr. Aalap Shah, Dr. Meghan Flanagan, Dr. Katy Flynn-O'Brien, Dr. Andrew Herstein, Dr. Barbara DeWitt, and Dr. Elizabeth Visco.
- We would encourage you to use QI terminology in the description of your project (e.g. LEAN SixSigma, PDSA, etc.)
- Tools/guides for QI project development available at HQSC website (go to resource section in HQSC website: http://www.uwhqsc.org/resources.html)

Eligibility:

- Applicants must be members of HQSC
- All submission must include the following:
  - Application form
  - Curriculum Vitae

Send completed application to axkimx@uw.edu & kseitz4@uw.edu
